Webinar Series Sponsorship Opportunities

THE ALL-ENERGY & DCARBONISE WEBINAR SERIES

We created the All-Energy and Dcarbonise webinar series with one thing in mind: Supporting the renewables and low carbon community. We want to help you promote the path towards net zero and energy transition. Whether that is through showcasing a solution, improving brand awareness or establishing yourself as a thought leader, our webinar series is the perfect fit.

We launched with four webinars on what would have been the date of the live show, on 13 and 14 May 2020, and quickly found the level of support and participation to be outstanding! Capitalising on that success, we now host monthly webinars on the hottest low carbon and renewables topics, including offshore and onshore wind, hydrogen, inclusive transition, community and local energy, solar energy and more. Since May, we have hosted 26 webinars, enjoying 15,650+ registrations, 16,960+ live and on-demand views, 415+ audience questions and 6,180+ subscribers on our BrightTALK webinar channel.

Webinar series partners & sponsors include:

BENEFITS OF SPONSORSHIP PACKAGES

Position your brand as a thought leader to the industry

Want to position your organisation as the thought leader for/ solution provider to a specific sector, or 'pan-industry'? Showcase your expertise to our audience, differentiate your brand from the competition and establish your organisation as a thought leader in their eyes.

Brand exposure

Want to highlight a campaign you are launching? Get noticed by your target audience and receive maximum exposure with our digital and promotional opportunities.

Acquire new leads

High quality leads are waiting to find a solution like the ones you have to offer.

Reach target audience from all over the world

Want to ensure the industry takes notice of a White Paper or key report you are publishing? Engage with thousands of industry professionals through our online platform

WEBINAR FORMAT, SESSIONS AND DATES

- ✓ Up to 90-minute sessions held with up to six panellists including the Chair
- ✓ Held either purely as panel discussion with the Chair or as brief panel presentations (maximum of 8 minutes) and then panel discussion with 15-20 minutes Q&A session
- ✓ All the webinars held so far can be viewed on-demand at forum.all-energy.co.uk

- ✓ We market our webinars to our 17,000+ community and 18,000+ social media followers. Our audience expects to learn from the biggest names in the industry, and we deliver. Our speaker line up has included Nicola Sturgeon MSP, First Minister of Scotland, Paul Wheelhouse MSP, The Scottish Government's Minister for Energy, Connectivity and the Islands, Keith Anderson, CEO, ScottishPower, Julia The Baroness Brown of Cambridge, DBE FREng FRS, Chris Stark CEO of the Committee on Climate Change and many others from organisations such as The Scottish Government; Natural Power; SP Energy Networks; Local Energy Scotland; Siemens Energy, and Shepherd and Wedderburn LLP.

The screenshot shows the 'Webinars' section of the All Energy Forum website. The page features a navigation bar with links for HOME, BLOG, VIRTUAL EVENTS, THE COMMUNITY, LATEST INSIGHTS, PRESS RELEASES, and OUR EVENTS. Below the navigation, the word 'Webinars' is displayed. The main content area lists five webinars, each with a thumbnail image, a title, a date, and a 'Read more' button. The webinars are:

- Floating Offshore Wind** (July 3, 2020): Breaking out into deeper waters and new territories. Speaker: Mat Smith, founding director of specialist consultancy Lumen Energy & Environment.
- Keeping it Real** (July 2, 2020): An inclusive transition to net zero. Speaker: Guy, who has worked within the SP Group for over 25 years.
- 40GW solar deployment by 2030** (July 2, 2020): 40GW solar deployment by 2030. Speaker: Chris, who has worked in the construction industry for 20 years.
- The resurgence of onshore wind** (June 17, 2020): The resurgence of onshore wind. Speaker: Lesley McNeill, Head of Wind Energy Policy for the Scottish Government.
- Meet the Minister** (June 4, 2020): Meet the Minister. Speaker: Judith, who will be introducing the session.

Starting in: 21:42:27

Sponsored by The Scottish Government and SP Energy Networks

Engineering solutions such as renewable energy technologies, battery solutions and digitisation often take centre stage in discussions around 'how we tackle climate change' or ensure a green recovery from COVID-19 as STEM, more so than STEAM (A: arts and creative talents) subjects, have been pushed to the fore as a means of preparing the future workforce for what's required.

But what will all of this mean for consumers and their communities, particularly those described as living in vulnerable circumstances, as we plan our road to recovery from the impacts of a global pandemic and look toward a net-zero future? What softer-skills, local advice and knowledge, and large-scale engagement are required to ensure that, genuinely, no one will be left behind and that individuals and their communities – who often hold the local answers to local problems - can play an active role in tackling climate change whilst maximising benefits and cost-efficiencies from SMART innovation in an informed and locally sensitive way.

Chair: Guy Jefferson, Customer Service Director, SP Energy Networks

Company Headline Day Package Highlights

Price: £15,000

The screenshot shows a webinar landing page for 'CARES support for local energy'. At the top, it features the ALL-ENERGY and Dcarbonise logos. The main heading is 'CARES support for local energy covers local ownership and / or community involvement'. Below this is a central diagram with four green boxes: 'to shared ownership projects', 'to local energy systems', 'to combine to develop a local energy business', and 'to establish a local energy business'. The diagram is surrounded by logos for 'LOCAL ENERGY', 'CARES', and 'natural power'. At the bottom, there are buttons for 'Vote', 'Rate this', and 'Details', along with social media icons for LinkedIn, Facebook, and Twitter.

The screenshot shows a webinar registration page for 'LOW CARBON HEAT Are heat networks the answer?'. At the top, it features the Dcarbonise and ALL-ENERGY logos. The main heading is 'LOW CARBON HEAT Are heat networks the answer?'. Below this is a 'REGISTER NOW' button. The page includes a 'Share This' section, a 'Description' section, and a 'What will you learn?' section. The 'What will you learn?' section lists several bullet points: '2 case studies from the UK and what's needed to deliver clean and local energy systems', 'The role of the local authority in the delivery of heat networks', 'The role of the local authority in the delivery of heat networks', 'The role of the local authority in the delivery of heat networks', and 'The role of the local authority in the delivery of heat networks'. At the bottom, there is a 'Register now' button.

Contact our sales team for more information and availability or to brainstorm a custom opportunity. We are always interested in exploring new and creative sponsorship ideas.
