

Regulating for Net Zero: Data and Digitalisation

Elena Bachvarova
14 Jan 2021

The fastest route to **Net Zero** is via data & digitalisation

- Our **objectives** remain:
 - Net Zero
 - Competition & Innovation
 - Protecting consumers
- **Markets, products and services** will drive innovation and data and digitalisation needs
- Traditional economic sectors will need to be more **interoperable**

Energy Data Task Force

Modernising Energy Data Programme

Vision

Delivery

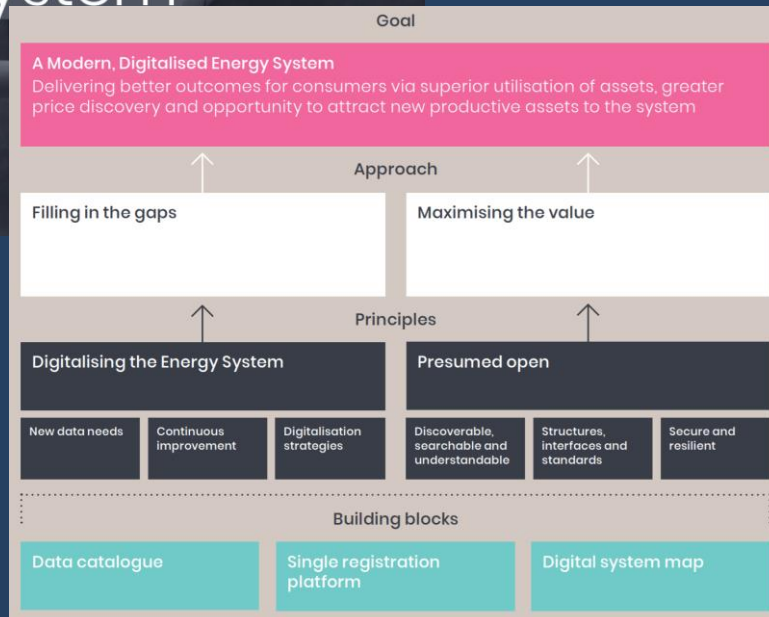

A coordinated response from government & regulator, in partnership with the sector

A strategy for a Modern Digitalised Energy System

Energy Data Taskforce report
